

# Individual supports by researchers outside the collaboration

LCGT f2f meeting  
Aug. 2012

*Tokyo Inst of Technology*  
**Kentaro Somiya**

- There have been and will be many things we have to learn from other GW projects.
- Some people have volunteered to help us, although they cannot(?) be KAGRA collaborators.

Example: Rana Adhikari, Mike Smith, Hiro Yamamoto(?)  
Jan Harms, Andreas Freise, Ettore Majorana,  
Joe Betzwieser, etc.

Note: Koji Arai and Keita Kawabe are listed as members  
[JGW-M1201022]

Should we do something like

- (i) Make an acknowledgement list and put it somewhere
- (ii) Write an acknowledgement in a paper/proceeding
- (iii) Anything else?
