

My work in 2015

7-2

Hiroki Tanaka

Q measurement

- The new clamp was made.
- I am doing the setup.

Q measurement

- I will bring two monolithic fibers (fiber8 and 9) to Jena.

CAD

- I told Miyoki-san that I want to install AutoCAD.

HCB bonding

- I practiced HCB bonding with Yamamoto-sensei.
- The surface of the prepared specimen is not even, so Newton rings always appears.

Master thesis

- I began to write my master thesis.
