- 1st International Workshop on KAGRA
 - Dates: June 2016
 - Host: Korean group (venue to be decided)

Final remarks

- KAGRA is in the very important stage. I really hope that all of us work together for the construction and commissioning of iKAGRA, so that we will have the successful operation of iKAGRA.
- We need to make a feasible plan for bKAGRA. We will continue discussing the plan (at the next F2F as well).
- KAGRA Scientific Congress has been approved. Many thanks to the preparation committee. We expect that;
 - the KSC members and its beard members will be selected within this year,
 - the first KSC (face-to-face) meeting will be held during the next F2F meeting, and
 - the next summer F2F meeting will be organized by KSC.
- Many thanks to Matsushima-san, Moriwaki-san, U. of Toyama students, Takayama-san, and Kawakami-san.
