

Hazardous event report

	☑
I found	an incident / a near-misses. ☐
	a hazard. ☐
	an accident. ☑

Location: <p style="text-align: center;">Center of the KAGRA site.</p>	Date: <p style="text-align: center;">2015/Oct/22</p>	Analyst: <p style="text-align: center;">R. Takahashi</p>
Task description: <p style="text-align: center;">A metal plate weighting about 30kg had been manually moved on to 2 persons.</p>		
Event description: A person lost balance at the time, the metal plate fell down about several cm. Then the person caught his finger between the plate and stand, and was injured with an incision.		
What is the keyword to express the event that you found? <p style="text-align: center;">Human damages: incision on finger.</p>		

Fault Tree Analysis:

Probability:

Sensible expression	Frequent 頻発する	Probable しばしば発生する	Occasional 時々発生する	Remote 起こりそうにない	Improbable まず起こり得ない	Incredible 考えられない
Points	0.1	0.01	0.001	0.0001	0.00001	0.000001

Risk Control:

The risk reduction measure that I suggest is ...

Always make verbal contact/oral confirmation when moving and/or handing materials.
 When handling heavy materials, wear leather gloves at the least (under rubber gloves, or in place of rubber gloves) even for work within the clean booth.
 Do not work with small number of people.
 Have safety shoes available for the clean booth.
